ACCOMMODATIONS FOR TOURISTS ARE NEEDED, SAYS ONE GUARD OFFICERS TALK OVER PLAN FOR BETTERMENT

"I have been in Honolulu for several weeks and thus far have but one criticism to make of your city, and that is that a more extensive endeavor should be made for the accommodation of tourists who visit here. Outside of that Honolulu is complete in climate and complete in scenery, and in many other ways too numerous to mention."

James M. Fuller, affiliated with the American News Company of New York City, made the foregoing statement this morning when asked to enumerate the impressions of his first trip to Honolulu. Mr. Fuller, accompanied by Mrs. Fuller, arrived in Honolulu February 17, and intends to remain here until he has had time to visit the other islands and the volcano.

The people of the United States have yet to learn what a strategic point Hawaii is," he said, "and of what great value it is to the American government. It is the half-way house between the United States and the Orient. To shipping, it is of untold value, for here you may supply steamers with water, coal and provisions. Your dry dock, when finished, will be able to accommodate the largest vessels in the American navy. The people on the mainland do not realize this; they are, you might say, ignorant of what Honolulu has to offer and what it is now offering. Here I am 5000 miles from home. I never dreamed to come here and find a modern American city with every convenience, and with perfect facilities. Had I been told that these things existed before I left the coast, I probably would have replied, 'Bosh,' and let it go at that. What most people expect to see when they come here are grass houses, and semi-barbarous natives. Your climate is excellent and your scenery beautiful."

Mrs. Fuller, who is an ardent lover of flowers and who, by the way, is president of the "Garden Club of the Counties of Orange and DuChesse," which has its headquarters at Tuxedo, expressed herself this morning as being amazed over the many tropical blooms of which Honolulu boasts, as well as the luxuriant foliage. Mr. and Mrs. Fuller plan to visit the volcano shortly.

LOGAN FROM MANILA CARRIES MANY MEN AND OFFICERS HOME

The army transport Logan, which sailed from Manila February 15th, is due Wednesday or Thursday. The troopship carries 19 sick, 11 general prisoners, eight casuals of the line, 48 from staff corps and departments, 202 infantrymen for discharge, 21 from the 24th (colored) infantry, 117 from the cavalry, 18 from the field artillery, 36 from the coast artillery and five from the engineer corps. The following military passengers are aboard: Majors Alexander M. Davis and Francis H. Beach, Captains Samuel M. English, Arthur H. Bryant and Albert A. King; 1st lieutenants C. C. Culver, L. L. Pendleton, Charles K. Ring, Howard G. Sharpe, C. T. Marsh, William A. McCain, William H. Rucker and Rush B. Lincoln; 2d lieutenants Herbert H. White, L. C. Tallaferrro and Edmund C. Glenn, the last named an officer of the Philippine scouts.

Major Davis is the son of General Davis, retired, of Honolulu. He was stationed here two years ago as commissary officer of the department.

Governor Pinkham has approved the license to the Oahu Railway & Land Company for a right of way over the government lands known as Upper Pouhala on Oahu. He also approved an exchange deed whereby the territory conveyed to the Kealeku Sugar Company about 9 acres of land for a right-of-way for its railroad through the government lands known as Wai-kiu, Honokalani, Kaunamau and Kawela, in exchange for certain lands in the district of Hana, conveyed to the territory last October by the company, for road purposes.

At St. Andrew's Cathedral at 7:30 this evening, Chaplain Scott of the 2d infantry, U. S. A., will deliver his second Lenten address, the subject being "Temptation." All are cordially invited.

Too Many CHILDREN

are pale and frail—backward in studies—with pinched faces and poor blood—their minds and bodies are actually starved because their regular food does not nourish.

Such children need Scott's Emulsion above everything else; it contains nature's rarest life-giving fats; it is essentially food value—blood-food and bone-food, free from wine, alcohol or harmful drugs.

Scott's Emulsion often builds many times its weight in solid flesh—its medicinal, tonic and nutritive properties make all good food go good.

Medals for length of service, a veterans' association, instruction camps, the detailing of officers to regular organizations for maneuvers, and the coming annual inspection, were the principal subjects of discussion at a special meeting of officers of the 1st Infantry, N. G. H., held at the armory Tuesday night.

Lieutenant Bump, inspector-instructor, went over the order under which he is to inspect the guard, explaining the points to the company officers. He leaves next Saturday to inspect the companies at Lahaina, Wailuku and Hilo, and will commence the inspection of the local organizations April 1, disposing of one company per night until all nine companies and the hospital corps have been inspected.

The matter of field instruction for the guard was discussed. Lieutenant Bump said that he believed the regiment, especially with so many recruits in the ranks, would get more real benefit from an instruction camp and practice march than by going on joint maneuvers with the regulars, and that he hoped this plan would be adopted. He favored, however, the attaching of guard officers to regular companies for the big maneuvers next fall, and if such an arrangement can be made it will probably meet with the approval of all.

There is talk of making a military tournament a regular annual fixture, to take place probably every summer.

The suggestion was made that a bronze medal be awarded for five years' service in the guard, a silver one for 10, gold for 15, and gold and enamel for 20 or over. The only disadvantage to this plan is that as the guardsmen have no dress uniform, they would have absolutely no chance to display their badges of faithful service.

Talk of a veterans' association, to be composed of former guardsmen, proved interesting. It is the belief of Colonel Coyne that such an association would keep up the interest of the old members and result in some reenlistments and in the securing of new material for the organized militia.

Pape's Diapiesin belongs in your home anyway. Should one of the family eat something which don't agree with them or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night it is handy to give the quickest, surest relief known.—advertisement.

EMPIRE THEATER

At the risk of their lives, a corps of moving picture operators secured the series of stirring pictures that are incorporated in the great dramatic production featured at the Empire theater the first of the week, entitled "Wanda, the Child of the Jungle."

In several thousand feet of film many talented performers are seen to the best advantage. Owing to the intense interest manifested at the presentation of the picture, the management has decided to offer the jungle picture as an added attraction for Thursday afternoon and evening.

Today's program at the Empire includes "The Accusing Hand," a stirring drama in two reels and can well be described as picturesque, sensational and holding the attention of the spectator to the last.

"Apples of Sodom," is another dramatic production blending love and misunderstanding to a degree seldom approached by actors in the world of the movies.

"The Well" is a picture highly spoken of and filled with interesting situations, besides carrying an element of mystery throughout its entirety. The program for today includes subjects pleasing to the lover of filmed comedy.

OPERA HOUSE

R. K. Bonine, of motion picture fame, spent considerable time on the big Parker sheep ranch near Mauna Kea, and while there "caught" a set of pictures that reproduce the sheep rangers' life with great exactness. The pictures show the large flocks of sheep on the range and follow them down to the shearing corral where the wool is sheared with electric clippers.

These scenes will be thrown on the screen of the opera house Friday and Saturday evenings as a part of the motion picture program arranged by Mr. Bonine.

Besides these pictures, several thou-
